

Encourage Your Staff to Get Tested for COVID-19

As Texas businesses re-open, everyone needs to continue to take precautions to minimize the spread of COVID-19 in our community. Testing remains one of our most powerful tools to stop the spread of COVID-19 and ensure our community is healthy and thriving.

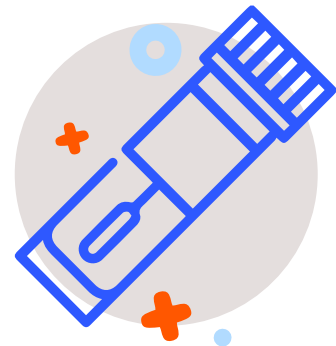

THE IMPORTANCE OF TESTING

- Identifies COVID-19 positive patients so they may self-isolate and reduce the spread of disease
- Identifies asymptomatic carriers of COVID-19
- Ensures symptoms similar to allergies, colds, or the flu are not COVID-19 related
- Enables public health officials to track and prevent the spread of COVID-19 through contact tracing
- Ensures a safe environment for all customers and employees

WHO SHOULD GET TESTED?

- People experiencing COVID-19 symptoms
- People who have been exposed to a person who is COVID-19 positive
- First responders & healthcare professionals
- People who work with populations at a higher risk for severe illness
- Workers who interact with the community

HOW TO ACCESS FREE TESTING

- Visit covcheck.hctx.net or call 832-927-7575
- Answer a few simple questions about yourself and any potential exposures or symptoms you may be experiencing
- You'll receive a code to visit one of our drive-thru testing facilities

Testing for COVID-19 in Harris County is safe, simple, and free. Help stop the spread of COVID-19 by visiting covcheck.hctx.net or call 832-927-7575.
